

PROJECT SUMMARY

Strengthening Integrity and Anti-Corruption Efforts of the Private Sector in Myanmar

Country: Myanmar

Duration: 4 years (2019 - 2023)

Donor: Siemens Integrity Initiative

OBJECTIVES

This project seeks to **promote integrity among businesses in Myanmar** by **fostering a dialogue between private companies** and improving their capacity to develop and use business integrity tools. Enhancing interaction between companies and **benchmarking business integrity practices** are at the core of this project, which aims to **promote fair market conditions and ethical business practices in Myanmar**.

Business integrity tools and training programmes tailored to the Myanmar context have been developed with input from national and international stakeholders, creating a collective call to action and helping businesses to **strengthen internal measures to prevent and counter corruption**.

SUCCESS DATA

A Business Integrity Game was created to promote awareness and initiate dialogue on business integrity among Myanmar companies, with training provided to 15 companies on its use

12 private sector companies and two civil society organizations participated in a working group on business integrity

Three business integrity webinars on sharing best practices were held, attracting 211 participants from Myanmar's private sector

A model speak-up policy and a model internal reporting system were developed with and for Myanmar companies

An online corruption risk assessment tool for businesses was developed together with the Myanmar Business Integrity Advisory Panel

Two training sessions on Business ethics awareness and internal policy improvement conducted, reaching a total of 48 business representatives and management from the private sector

One report benchmarking good practices in the area of business integrity for companies operating in Myanmar was produced

OUTCOME AND IMPACT

- The tools developed under the project allow Myanmar companies to identify, evaluate and mitigate potential corruption risks in business operations.
- Ethical behaviour and business integrity measures in the Myanmar private sector is enhanced.
- The project activities contribute to reducing opportunities for corruption in the Myanmar private sector.
